5.4. Special New Innovative Initiatives or Ideas Adopted in the College (16 points)

5.4.1. Library Cataloguing Initiative:

- **Objective**: To improve the accessibility and management of library resources and enhance students' research capabilities.
- **Process**: The College implemented a new cataloguing system with regular updates.
- **Outcome**: Students reported a significant increase in the ease of finding and accessing materials. The initiative also contributed to better performance in academic competitions. By implementing and refining a library cataloguing system, the college not only enhances its educational resources but also actively supports students in developing a competitive edge through better access to information and improved educational capabilities.

The Library catalogue can be accessed online by the students for their easy access. The library is being digitized and more resources will be made available to the students via this website. To search a book or an author Press Ctrl + F and type the name. You can locate the book in the library using the accession number. Please contact the Library Incharge if you need assistance.
