

## 2.12 Career Counseling Cell

Career Counseling Cell is an integral institutional body established to provide systematic guidance and support to students as they navigate their academic journeys and transition into the professional world. The primary objective of the cell is to empower individuals with the necessary resources, information, and personalized advice to make well-informed decisions regarding their future education, training, and employment opportunities. By organizing workshops, conducting aptitude assessments, facilitating interactions with industry experts, and offering one-on-one advising sessions, the career counseling cell plays a crucial role in bridging the gap between student aspirations and the demands of the modern job market, ultimately aiming to enhance overall student employability and career satisfaction.
